

Inspirational Ideas from the Finest Creative Talent

Introducing some new projects from our excellent roster, Arena continues to nurture the creativity of our artists.

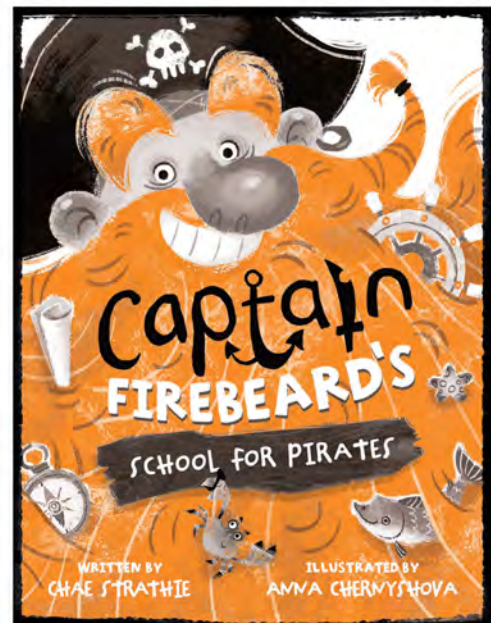

We have an impressive array of original ideas; from pre-school to teen, fact to fiction, fresh self initiated work and graphic novels. Also featured are some of our favourite published book covers and written and illustrated children's books.

Anna Chernyshova, who joined us last year, a talented graduate of the Cambridge Children's MA, has had major success, both in the UK and the USA.

We are excited to announce our two new signings, the wonderful graphic world of **Graham Carter**, and the knowledgeable, visual storytelling of **Joe Lillington**. We hope you love their work as much as we do.
